

Northwind Bakery Online Ordering

Where things stand

You run a growing 12-person bakery chain, but right now, your website can not take online orders. Customers want to order ahead for pickup, and they are missing a smooth way to do it.

Phone calls and walk-ins are working, but they take staff time and leave sales on the table. You need a reliable pre-order system that fits your daily operations without adding friction.

What success looks like

Here is what will be true when we finish this work:

- Customers can browse your full menu and pay for pickup orders directly on your website.
 - Your staff can manage incoming orders, print kitchen tickets, and update daily item availability with ease.
 - Your 60-item menu is fully migrated with clear categories, descriptions, and pricing.
 - Two of your team members are trained and confident in running the day-to-day digital orders.
 - Your new online store is live and stable within six weeks.
-

Scope of work

Shopify Setup We will configure a clean, fast Shopify store tailored for bakery pickup, complete with secure payment processing and location settings.

Menu Migration We will build out your catalogue of approximately 60 items, organizing them into clear categories with your provided photos, descriptions, and dietary labels.

Staff Training We will run two hands-on training sessions with your designated team members and provide a short written guide for daily operations.

Not included

- Custom point-of-sale hardware installation
 - Ongoing digital marketing or social media management
 - Professional food photography or copywriting
-

Approach & timeline

Setup & Structure · Weeks 1-2 We configure the Shopify store, establish pickup rules, and map out the menu structure. You receive a working draft site to review.

Migration & Build · Weeks 3-4 We add all 60 menu items, set up order notification workflows, and test the checkout flow from end to end. You receive a complete preview store for final testing.

Training & Launch · Weeks 5-6 We train your staff, run dry runs for order fulfillment, and push the site live for your customers.

Investment

This fixed investment covers everything required to launch your online pre-order system from scratch within six weeks. Payment is due in full upon acceptance of this proposal.

Shopify Store Setup & Configuration	\$3,500
Complete setup of the e-commerce platform tailored for bakery pickup orders.	
Menu Migration & Catalog Build	\$3,000
Formatting and uploading approximately 60 menu items with categories and details.	
Staff Training & Launch Support	\$2,000
Hands-on training for two staff members and live launch assistance.	
Total	\$8,500

Terms

- This proposal is valid for 14 days from today.
 - Payment is due in full upon acceptance.
 - Two rounds of revisions are included for design and layout elements.
 - You own all store data, customer lists, and intellectual property upon final payment.
 - Either of us can cancel this agreement with written notice, paying for work completed up to that point.
-
